

Welcome to your RosterIQ pilot!

This checklist covers everything we need from you to get started. Complete these items and we'll have your AI rostering live within a week.

Venue Name:	_____	Contact Name:	_____
Email:	_____	Phone:	_____
State:	_____	Employees:	_____
		POS System:	_____

1. Access & Credentials

■ Tanda API access confirmed

Your Tanda plan must include API access (Enterprise or above). Contact Tanda support if unsure.

■ Tanda API credentials provided

Client ID and Client Secret from Tanda Settings > Integrations. We'll send a secure link to submit these.

■ POS system CSV export tested

Export 1 week of sales data from your POS (H&L, Lightspeed, or Square) and send to us for validation.

■ Venue Wi-Fi or network access (if on-premises dashboard needed)

2. Historical Data

■ 12 weeks of roster history available in Tanda

We pull this automatically via the API. More history = better predictions.

■ 12 weeks of POS sales data exported as CSV

Daily transaction-level data with date, time, revenue, and covers/guests if available.

■ Upcoming events or closures flagged

Tell us about any one-off events, renovations, or holidays in the next 4 weeks.

3. Venue Configuration

■ Employee list reviewed in Tanda

Ensure employment types (FT/PT/Casual), hourly rates, and award levels are current.

■ Minimum staffing levels provided per role

e.g., Bar: min 2, Kitchen: min 3, Floor: min 2. We use this as a safety floor.

■ Target labour percentage agreed

What's your target labour cost as a % of revenue? Industry average is 28-35%.

■ Trading hours confirmed

Standard open/close times for each day of the week.

4. What Happens Next

Day 1-2 We connect to your Tanda account and import historical data.

Day 3-5 AI model trains on your venue's patterns. POS data imported and validated.

Day 6-7 First AI-generated roster delivered alongside your existing roster for comparison.

Week 2-4 Model accuracy improves daily. Weekly cost reports show savings vs your old rosters.

Week 4 Pilot review meeting. We present results and agree on next steps together.
